*Sponsorship opportunities*

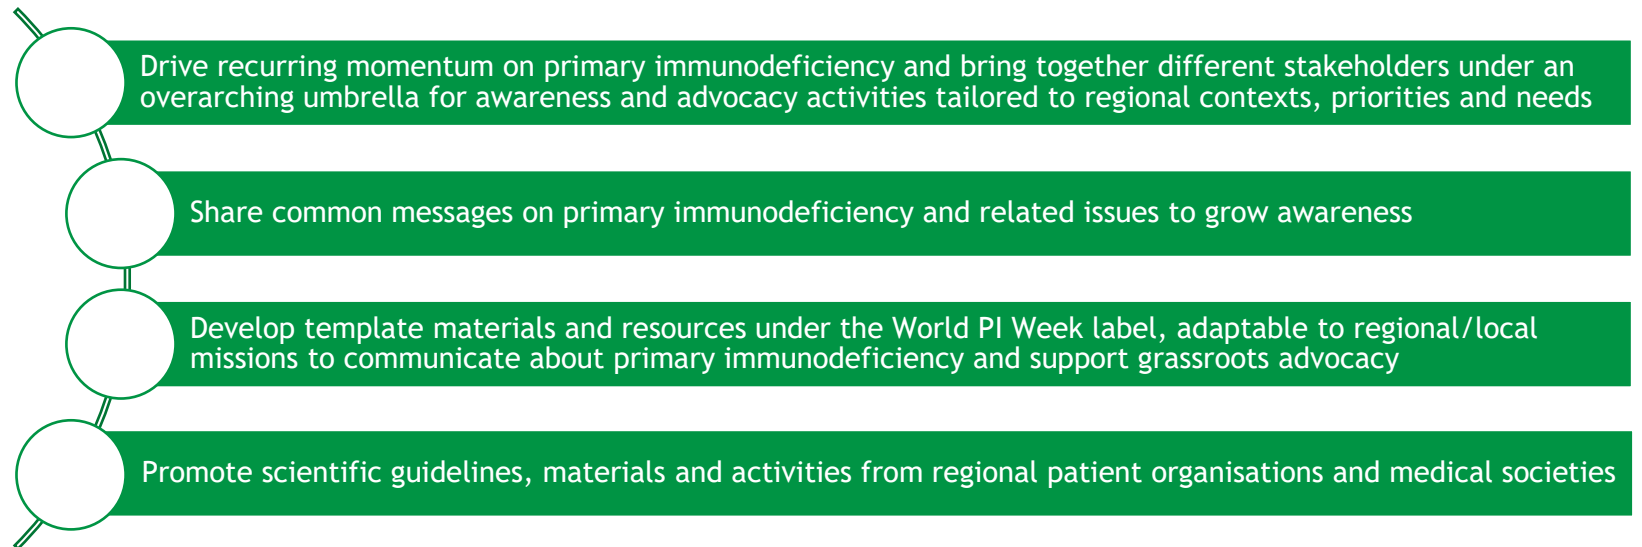

Campaign dates: 22-29<sup>th</sup> April 2022

# About World PI Week

Over 10 million people live with PI around the globe, and yet the condition is still widely unknown. Greater awareness, testing, diagnosis and improved access to treatment are needed. Each year, on the 22nd - 29th of April, World PI Week gives us a chance to celebrate the efforts of the PI community. It is a global movement to raise awareness of Primary Immunodeficiency (PI) and related challenges; promote quality of life for people with PI, early diagnosis, availability and access to treatment and care worldwide; and stimulate communication and advocacy around PI.

*World PI Week acts as a central platform to drive awareness as well as global and national advocacy.*

*It has since its inception been successful in stimulating awareness and advocacy efforts in all continents.*
